PROFESSIONAL SUMMARY

Full Stack Developer with a strong focus on Frontend, specialized in building fast, clean, and intuitive web apps. Experienced across the React ecosystem (React.js, Next.js, Astro, and React Native), turning complex requirements and UI designs into smooth, high-performing products.

WORK EXPERIENCE

Full Stack Developer / IT Lead

SinergiaRH-Digital SRHD • Remote *Sep 2023 - Present*

- Built a custom CMS from scratch so the non-technical team can update copy, images, and services directly without touching code or relying on developers.
- Designed an internal recruiting module with integrated job forms, streamlining candidate applications directly through the site.
- Integrated Mercado Pago to enable online course sales and added the LinkedIn API to verify real client reviews.
- Implemented JWT role-based authentication (Admin, Staff, User) for platform security and set up Moodle to run live cohorts.
- Guided intern developers through regular code reviews, frontend architecture standards, and clean code practices.
- Stack: React.js, Node.js, Express.js, MySQL, JWT, Mercado Pago, LinkedIn API, Tailwind CSS.

Frontend Developer

ENEMAC • Remote / Freelance *Aug 2026 - Sep 2026*

- Built the company platform from scratch using Astro and Tailwind CSS, achieving near-instant load times (top Core Web Vitals) and technical SEO optimization.
- Integrated GSAP and Lenis smooth scrolling to deliver high-end interactions and visual hierarchy tailored for heavy engineering projects.
- Developed dynamic React components (interactive bento layout, multi-language i18n, live counters) while keeping the main bundle lightweight via Astro Islands.
- Created serverless API endpoints to validate technical quote requests, automating email alerts and inquiry routing via Resend/Nodemailer.
- Stack: Astro, React.js, TypeScript, Tailwind CSS, GSAP, Lenis, Node.js, Resend / Nodemailer.

Frontend Developer

Software on the Road • Remote *Nov 2024 - Jul 2025*

- Built modular React components matching design specs pixel-for-pixel while keeping interfaces responsive on all screen sizes.
- Contributed UX insights during wireframing and prototyping to fix usability bottlenecks before writing code.
- Fixed production bugs and performance slowdowns across modern mobile and desktop browsers.
- Worked in agile sprints, collaborating directly with technical leads to hit delivery timelines on schedule.

Full Stack Developer

Fairway Indoor Golf • Remote / Freelance *Dec 2023 - Feb 2024*

- Rebuilt the entire web application using React and Node.js, improving page speeds and making the user journey much cleaner.
- Created a real-time bay reservation engine with automated Stripe payments and automated PDF receipts via email, eliminating manual booking management.
- Built a back-office dashboard so the owner can manage bay schedules, rates, machine inventory, and photos on their own.
- Centralized transaction tracking, customer logs, and revenue metrics into a single admin view.
- Stack: React.js, Node.js, Express, MySQL, Stripe API, Tailwind CSS.
